ACADEMIC PROJECT

EV Charging Station Finder App

2024 - 2024

INDIA, Kolkata

The objective of an EV Charging Station Finder App project is to provide electric vehicle users with a user-friendly platform to easily locate nearby charging stations, thereby reducing range anxiety and facilitating longer journeys. This entails offering real-time information on station availability, types, and compatibility, as well as integrating with mapping services for seamless navigation. The app aims to enhance user experience through intuitive design, reliability in information provision.
